- Consulting Fees increased in 2023 during the club's strategic planning project. The expenses included CPR Group Consulting to assist on the new strategic plan creation, board structural changes and governance support.

Our cash flow statement demonstrates the inflows and outflows of cash throughout the fiscal year. It showcases the club's ability to manage its financial resources effectively.

At the beginning of 2023, working bank account balance was \$ 698k. As 31st December 2023, the balance was \$ 728k. These funds are readily available to support the club's ongoing operations and initiatives.

The Fundraising account ended 2022 at \$ 31k and has a closing balance of \$ 28k as of 31st December. The club used this fund to support Michael Dobroskok on his Australian Selection and associated travel fees. Funds were also used for bursary support and a donation to the Walking with Ava Foundation.

CL advised members that the club's financial results for the year aligned with the club's budget forecasts, with only minor variances. In September 2023, when the new General Manager commenced, an emphasis was placed on reviewing spend and monitoring control across operational activities to ensure a strong EOFY position for the remaining 3 months. The club closely monitored its expenses and revenue, adjusting where necessary to ensure financial stability.

The club has maintained a healthy reserve fund to support future investments and unforeseen expenses. As of 31st December 2023, the club has a reserve of \$72,000 in the club's capital investment fund. During 2023, this fund was used to purchase and install the replacement floor at Coomera and the refurbished floor at Miami. The funds used for this project, has been replaced during the 2023 financial year.

This account is aimed to support the investment in equipment replacement and maintenance across both venues. The club envisages this fund will continue to support equipment purchases including equipment additions, replacements and/or changes based on recommendations and prioritisation based on program needs and club return on investment.

In 2023 the new General Manager was instructed to carry out a financial review of the clubs' systems and accounting processes. As a club we conducted a thorough financial review, ensuring that we had a strong position going into 2024. A new Financial Management Policy was established to create operational autonomy for the General Manager and the GCGC Team whilst guarding against risk factors which could disrupt the organisation.

CL advised members that the club plans to continue growing income streams through future commercial opportunities, creating additional products and services and reviewing ongoing operational expenses. The club will continue to seek assistance from Local, State and Federal funding with an emphasis on Infrastructure Improvements at Miami and Equipment Investment across both venues. As a club the aim is to allocate resources strategically to enhance member experience and further develop programs.

CL closed off by advising members that the Board is confident the club is in a strong financial position.
